REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Applicant has claimed uniquely distinct features in the instant invention which are not found in the prior art, either singularly or in combination. The present invention provides an apparatus for encryptically processing digital video data, followed by an encoding procedure to the processed digital video data with orthogonal transform to produce a coded video signal, the apparatus comprising: a representative-value calculator to obtain a representative value of luminance data of a plurality of pixels of the digital video data for each of pixel blocks having a predetermined number of pixels, each pixel block corresponding to a unit of data subjected to the encoding procedure, as a quantized integer for each pixel block by using a specific function with the stored luminance data as a parameter, a data rewriter to determine whether the quantized integer of the representative value for each pixel block is a multiple of a preset integer N of two or larger, and, if not, rewrite the stored luminance data with a specific requirement giving the least range of change in gradation so that the quantized integer becomes a multiple of the integer N , whereas the stored luminance data remain unchanged if the quantized integer is a multiple of the integer N , thus encryptically processing the digital video data; and an encoder to encode the encryptically processed digital video data with orthogonal transform to produce a coded video signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas R. Peeso whose telephone number is 571 272-3809. The examiner can normally be reached on Mon.-Fri, 7:00 a.m. to 3:30 p.m. The central fax number for the office is 571 273-8300.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gilberto Barron, can be reached on 571 272-3799.
